

Project Demo Planning

Date	15 March 2026
Team ID	SB25-PNA-1042
Project Name	Personalized Networking Assistant
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the Personalized Networking Assistant, including the flow of the demo, key features to highlight, and the responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the networking-conversation problem and the goal of the Personalized Networking Assistant.	3	M Kowshick Reddy
2	Solution & Architecture Overview	Explain the FastAPI + Streamlit architecture and the role of DistilBERT and GPT-2.	4	M Kowshick Reddy
3	Live Demo: Smart Starter Generation	Enter an event description and interests to generate context-aware conversation starters in real time.	5	G Hemanth Chowdary
4	Live Demo: Fact Verification	Search a topic and show the summarized, reliable reference fetched via the Wikipedia API.	3	G Hemanth Chowdary
5	Live Demo: History & Feedback	Review previously generated conversations and demonstrate the thumbs-up feedback logging.	3	P Poojitha
6	Q&A; Session	Address audience questions on the model choices, architecture, and future scalability plans.	4	P Poojitha

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Set context: professionals often struggle to start meaningful conversations at networking events.
2	Solution Overview	Highlight the modular FastAPI backend, Streamlit frontend, and Hugging Face model pipeline.
3	Live Feature Demonstration	Showcase theme extraction, starter generation, fact-checking, and history/feedback in sequence.
4	Q&A; Session	Open floor for mentor and peer questions; team members respond based on their module ownership.
