Project Name	Personalized Networking Assistant
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A working professional attending an industry networking event.	Start meaningful, relevant conversations with new contacts	I often can't find a relevant topic quickly, especially with strangers from different backgrounds.	I don't have time to research every attendee's background or the event themes in depth.	Anxious and underprepared when approaching new people.
PS-2	A conference attendee about to discuss a specialised or technical topic.	Quickly verify a fact before bringing it up in conversation	General web search results are cluttered and not always reliable in the moment.	I need a fast, trustworthy reference I can check right before or during the event.	Hesitant to speak confidently on unfamiliar topics.
